Dear Sirs

After reading an article in the Houston Chronicle, dated June 4, 2017 about Telemarketers fight to get in with no ring, I am writing to let you know that I, and everyone I talk to are very much against allowing this. We have enough calls that get through the do not call list with tricks. We receive an unbelievable number of calls, and even after blocking them, it comes through a different number or unknown number. Now to be inundated with text messages is not only undesirable, but an outlandish idea.

Please, I beg of you, do not let this happen.

Best Regards,

Phil Erdmann
